

The New England Kitchen: A Monthly Journal Of Domestic Science, Volume 1...

THE WIMODAUSIS CLUB COOK BOOK 539

Enjoy the Convenience of a
PLANNED KITCHEN
Equipped with Silvery
MONEL METAL

THE KITCHEN, neglected for years, is at last receiving the attention it deserves. The modern kitchen is planned for beauty and efficiency. The sink, range, refrigerator, cupboards, and working surfaces are placed to save steps. Careful provision is made as regards light and ventilation. A harmonious color scheme on floor, walls and equipment makes the kitchen a pleasant place to work in. And of course the sink, table top and working surfaces are of silvery Monel Metal.

Monel Metal is so easy to keep clean and sanitary. It is rust-proof and resists the corrosive attacks of food juices. It lessens dish breakage and dish clatter, for it is resilient, not stone-like. It is solid metal clear through, so its silvery beauty is permanent.

Write for illustrated literature on Monel Metal Sinks and working surfaces, or for information regarding modern kitchen planning.
